The company Zhavoronok XXI VEK LLC was founded in 1999. At present, the company is one of the main manufacturers of SLD Nadezhny Control 80 battery mass switches (battery) in Russia.

Zhavoronok XXI VEK LLC

The company Zhavoronok XXI VEK LLC was founded in 1999. At present, the company is one of the main manufacturers of SLD Nadezhny Control 80 battery mass switches (battery) in Russia.

The production volume is about 5 thousand sets of SLD and 10 thousand pieces of battery master switches per year. The enterprise has production facilities, which will significantly increase existing volumes. The company is a member of the SAE International (Society of Automotive Engineers).

History of the company

At the initial stage of the company's development, the main activity of the company was the wholesale of refined products - diesel fuel, motor gasoline, fuel oil, bitumen and other petroleum products. Over time, for the convenience of customers, Zhavoronok XXI VEK LLC purchased the first gasoline truck. However, during the financial crisis of 2008, the situation in the transportation sector deteriorated, and the major players in the oil and gas industry acquired their own fleet, as well as installation of additional motor transport enterprises, boiler rooms and asphalt plants with private carriers. Due to this situation, the company's clients were significantly reduce the number of vehicles, expand the area and staff for maintenance and repair of third-party carriers' vehicles. Thus, since 2009, the main activities of the company were the repair and maintenance of trucks, supply of private filling stations, industry acquired their own fleet, as well as installation of additional equipment. A fairly large part of the company's clients were carriers of petroleum products. Due to the fact that the field of transportation of dangerous goods has always been tightly controlled by regulatory authorities, Zhavoronok XXI VEK, knowing all

and opened a new business - transportation of petroleum products.

the nuances from the inside, always found the best solution for their customers any problems

- Later, in a short time, having assembled a team of specialists, Zhavoronok XXI VEK was the first in Russia to develop, produce and test a test sample of speed limit device (SLD). In 2014, the new device was certified under the brand name Nadezhny Control, and its production - was established in the necessary volumes. At the moment, all vehicles carrying dangerous goods, as well as buses carrying organized groups of children must be equipped with such devices.
- Soon Zhavoronok XXI VEK established production of another

necessary product - the main switch of automotive battery Nadezhny Contact. Its sales were also quite successful for the company.

New device was certified under the brand name Nadezhny Control in

2014

Products

In the process of development by employees of the company Zhavoronok XXI VEK was organized several stages of testing the device directly on vehicles. Due to the fact that Zhavoronok XXI VEK LLC is part of a group of companies, members of which are also transport companies, the tests of SLD Nadezhny Control 80 were conducted on different equipment.

As a result, the workers of the company managed to create a reliable and durable device with maximum service life, easy to install on the vehicle. The advantage of the device is also suitable for installation on most types of vehicles.

Nadezhny Control 80 limitation device has type approval in accordance with the UN ECE Regulation No. 89 and is certified in the framework of the Technical Regulations of the Customs Union unification: Nadezhny Control 80 is TR CU018/2011 "On the safety of wheeled vehicles", which allows to freely distribute and use it on all types of transport.

Export

At the moment, the account of Zhavoronok XXI VEK has several single deliveries to Egypt, UAE, Australia, Mexico and Estonia.

- Since 2019, the company's management has

focused on foreign markets for the sale of automotive components.

- By the end of 2021, it is planned to establish stable partnerships with foreign companies-consumers of products and significantly increase the share of export sales.
 - At the same time, Zhavoronok XXI VEK LLC actively participates in relevant programs of Moscow Export Center.
-

Every year the production volume is about

10000 pieces of battery
master switches
