BUSINESS UNION

The company BUSINESS UNION was founded in 2003 and today is one of the leading developers of commercial accounting nodes in the Russian market.

BUSINESS UNION

The company BUSINESS UNION was founded in 2003 and today is one of the leading developers of commercial accounting nodes in the Russian market.

The long-term activity of the company began with the development and creation of a fuel-filling complex for commercial accounting of petroleum products TZK-100. Besides, the team of specialists of BUSINESS UNION is engaged in designing oil depots for many Russian companies. Gradually developing, the company began to establish its own production - there appeared the design department, warehouses, paint shops, as well as a department dealing exclusively with new developments. The products are delivered to all federal districts and republics in the Russian Federation.

Products & Services

TZK-100

The main product of the company is fueling complexes TZK-100, which have different areas and applications.

There are several models designed to account for and measure the volume and weight of fuel when pumping, receiving and delivering it to road and rail tank cars. The TZK-100 complexes have many modifications and are manufactured according to individual customer requirements. Thus, the company produces metering complexes in cold climate conditions and models of container execution.

Filling risers

In 2014-2015 the company participated in the state program of import substitution. In this connection, new products were developed - filling risers, gas separators, filters and other devices.

Constructions of the upper loading (SEALED-HERM-100G) are designed for the upper loading into road and rail tank cars, as well as other containers of oil and petroleum products. While consoles of lower loading - for dosed loading of oil and oil products and are operated as part of automated measuring systems.

Design and manufacture of steel structures and loading racks

In addition, the range of services includes design and manufacture of steel structures and loading racks designed for the convenience and safety of personnel when servicing road and rail tank cars during loading operations of crude oil and refined products.

Additional equipment

At the same time, BUSINESS UNION manufactures additional equipment - filters, gas separators, traffic lights, barriers with or without traffic lights, gangways, power control cabinets, as well as spare parts and various components for equipment.

Projects

One of the first customers for oil depots design was such domestic enterprises as Kaluganefteprodukt, Ryazannefteprodukt, Alliance Oil Company, Ministry of Emergency Situations of the Russian Federation of Volgograd Region, LUKOIL-Severozapadnefteprodukt.

In 2010, the company BUSINESS UNION took part in the construction of the LUKOIL petrol station Voda-Bereg in St. Petersburg.

In 2016, the company received a project to create the object Transneft-Baltika.

In 2019, a program was implemented to upgrade the automated systems of upper and lower loading into tank trucks for Rosneft, with all the necessary equipment in the amount of 95 units TZK-100, ramps, loading systems and metal structures were delivered to 22 oil depots in just four months.

Partners and customers

BUSINESS UNION cooperates with many Russian and foreign companies from different fields and directions, from construction and installation companies and oil depots to consulting companies in the field of business management and conference organizers. Among such organizations: HMS Neftemash, Gazovik Group of Companies, Topaz, HIMMASH-APPARAT, Gorelteh, Wago, IEK Group, Ligr, Shneider Electric and many others.

Among the clients of this organisation you can find such major oil refining companies as Rosneft, Lukoil, Gazpromneft, Yukos, Alliance, Bashneft, Rosreserve, Transneft.

Exhibitions and awards

In 2010 and 2011 the company BUSINESS UNION participated in the largest international forum in the field of ensuring high accuracy, quality and safety of production and finished products MetroExpo, where customers and manufacturers of metrological support means meet within the exhibition. This event is annually held in Moscow on the territory of Exhibition of Achievements of National Economy.

In 2012, the organization became the winner of the All-Russian Prize Enterprise of the Year in the nomination Enterprise of the Year 2012.

In 2016, as part of the annual national award Company № 1 organization BUSINESS UNION received the title of Reliable supplier of products and services.

In October 2017 and 2018, the company participated in the Kazakhstan International Oil and Gas Exhibition, held in Almaty, which is one of the largest events in the oil and gas industry of Kazakhstan. The exhibition annually gathers about 350 companies from 42 countries.
