Жаворонок XXI BEK

VEK

The company Zhavoronok XXI VEK was founded in 1999. At present, the company is one of the main manufacturers of speed limiting devices Nadezhny Control 80 battery mass switches (battery) in Russia.

The company has a developed network of distributors of its own products in all regions of the Russian Federation. Among its regular partners are the largest companies-carriers of the Moscow region: TransSroyMechanization, GAZPROMNEFT-Transport, Neftmagistral, Komplex-Oil, Cherkizovo Group and

History of the company

At the initial stage of theHowever, during the financial crisisThus, since 2009, the main company's development, the mainof 2008, the situation in theactivities of the company activity of the company wastransportation sector deteriorated,Zhavoronok XXI VEK were the wholesale of refined products -and the major players in the oilrepair and maintenance of trucks, supply of private filling stations,industry acquired their own fleet,as well as installation of additional motor transport enterprises, boilerwhich further aggravated theequipment. A fairly large part of rooms and asphalt plants withsituation of private carriers. Due tothe company's clients were diesel fuel, motor gasoline, fuel oil,this situation, the company'scarriers of petroleum products. bitumen and other petroleummanagement decided toDue to the fact that the field of products. Over time, for thesignificantly reduce the number oftransportation of dangerous goods convenience of customers,vehicles, expand the area and staffhas always been tightly controlled Zhavoronok XXI VEK purchasedfor maintenance and repair ofby regulatory authorities,

the first gasoline truck and opened third-party carriers' vehicles.
a new business - transportation of
petroleum products.

Zhavoronok XXI VEK, knowing all
the nuances from the inside,
always found the best solution for
their customers.

- Later, in a short time, having assembled a team of specialists, Zhavoronok XXI VEK was the first in Russia to develop, produce and test a test sample of speed limit device. In 2014, the new device was certified under the brand name Nadezhny Control, and its production - was established in the necessary volumes. At the moment, all vehicles carrying dangerous goods, as well as buses carrying organized groups of children must be equipped with such devices.

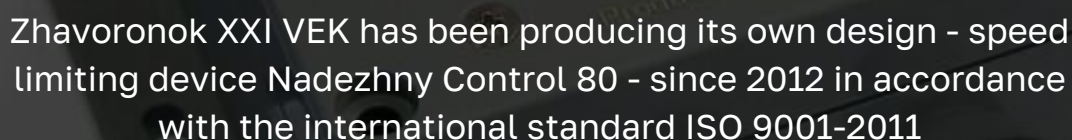

- Soon Zhavoronok XXI VEK established production of another necessary product - the main switch of automotive battery Nadezhny Contact. Its sales were also quite successful for the company.

New device was certified under the brand name Nadezhny Control in

2014

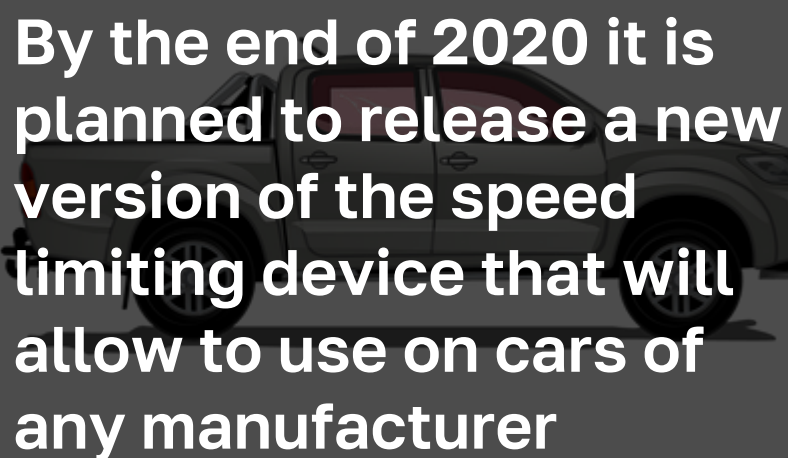

Products

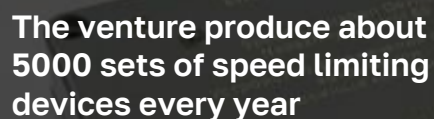

In the process of development by employees of the company Zhavoronok XXI VEK was organized several stages of testing for the device directly on vehicles. Due to the fact that Zhavoronok XXI VEK is part of a group of companies, members of which are also transport companies, the tests of speed limiting devices Nadezhny Control 80 were conducted on different equipment.	As a result, the workers of the company managed to create a reliable and durable device with maximum service life, easy to install on the vehicle. The advantage of the device is also in its suitability for installation on most types of vehicles.	Nadezhny Control 80 limitation device has type approval in accordance with the United Nations Economic Commission for Europe Regulation No. 89 and is certified in the framework of the Technical Regulations of the Customs Union TR CU 018/2011 (On the safety of wheeled vehicles), which allows to freely distribute and use it on all types of transport.
--	---	--

At the moment, the account of Zhavoronok XXI VEK has several single deliveries to Egypt, UAE, Australia, Mexico and Estonia.

- Since 2019, the company's management has focused on foreign markets for the sale of automotive components.
 - By the end of 2021, it is planned to establish stable partnerships with foreign companies-consumers of products and significantly increase the share of export sales.
 - At the same time, Zhavoronok XXI VEK actively participates in relevant programs of Moscow Export Center.
-

By the end of 2020 it is planned to release a new version of the speed limiting device that will allow to use on cars of any manufacturer

The venture produce about 5000 sets of speed limiting devices every year

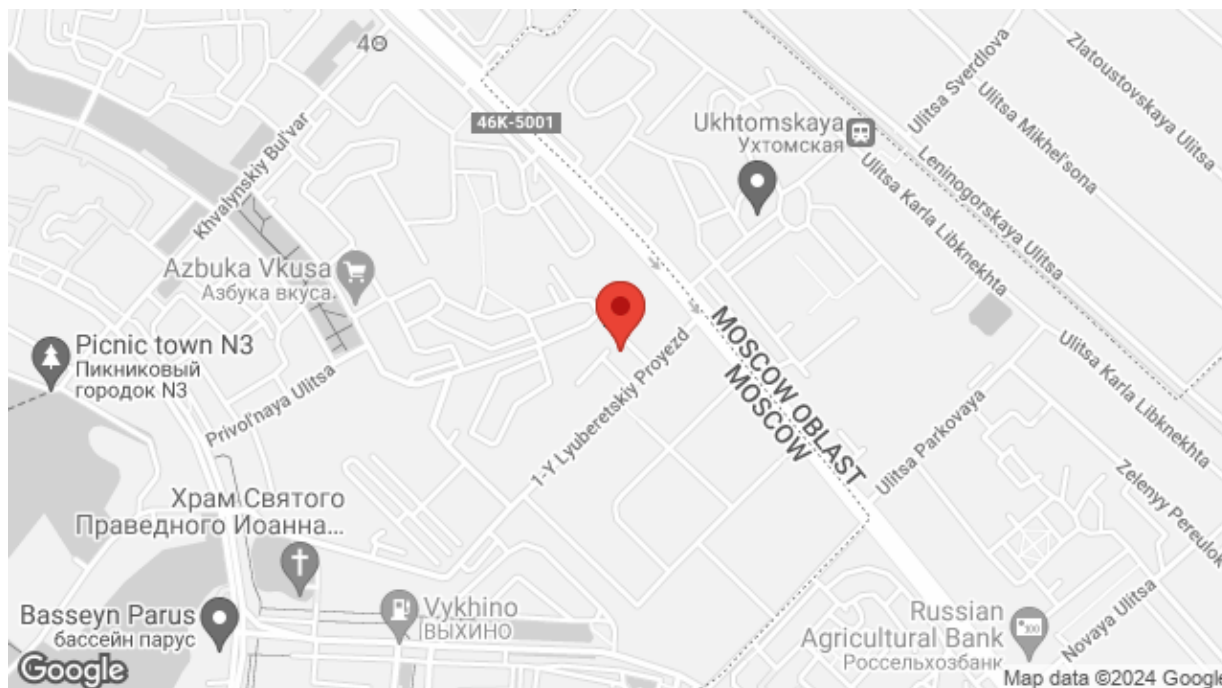

Zhavoronok XXI VEK products meets international standards

Every year the production volume is about

10000 pieces of battery master switches
