Noord Connect

Noord Connect, founded in 2010, is an international freight forwarder, which provides a full range of services for storage, handling, transportation and customs clearance of goods of various categories, including dangerous goods of all classes and goods requiring observance of temperature regime.

The main specialization of the company is export air and multimodal transportations to Asian and African countries, road transportations of cargoes from European Union countries to Russia, countries of Central Asia and Middle East. The company delivers cargoes by air, sea, rail and road transport. During the period of Noord Connect activity, the total number of cargoes carried by air transport is more than 500 tons, and the maximum weight of one cargo area is 5100 kg, which is twice the permissible weight (additional weight was carried by special permit).

History of the company

Since 2010, Noord Connect's management has visited more than 50 countries to conclude direct agency contracts and expand the luggage knowledge on the specifics of transportation and handling of goods in different regions of the world.

By 2015, the company's management decided to conduct a large-scale certification of personnel according to International Air Transport Association standards.

In 2016, the company trained its employees according to the standards of Federal Service for Technical and Export Control and began to provide services for export clearance and air transport of dangerous and dual-use cargoes.

Noord Connect is a member of the Russian Chamber of Commerce and Industry, the Russian Association of Freight Forwarding and Logistic Organizations and the international freight forwarders association Lognet Global.

At present, the company is rapidly developing and developing new regions for transportation, and at the same time opens new markets for Russian manufacturers.

Services

The company Noord Connect provides the following types of services:

Services of warehouse storage and cargo handling

The work is carried out taking into account physical peculiarities and special requirements to different types of cargoes, including special temperature regime and safe storage for cargoes with high value. On the basis of the rented warehouse of the companies the own shop for checking and packing of cargoes of any class of danger according to International Air Transport Association standards is created.

Registration of cargo insurance policy for the whole period of

Cargo insurance transportation, which implies full compensation of cargo cost in case of any force majeure situations on water, land or in the sky.

Consulting Consulting services in the sphere of logistics, organization of cargo transportation and realization of project deliveries; cost reduction; solution of tasks related to purchase, transportation, certification, customs clearance and distribution of goods.

Delivery of aircraft spare parts and components Delivery of aircraft spare parts and components for aircraft (ship spare parts, turbine and pumping equipment parts) and helicopters of Russian and foreign production to various regions of the world. Supplied equipment has all necessary certificates and fully complies with flight safety requirements.

Transportation geography

Noord Connect has extensive experience in transportation to hard-to-reach and unpopular regions, as: Sudan (trade agency and air delivery of general cargo and hazard class 1 cargo), Myanmar, Papua New Guinea, New Zealand (organization of multimodal transportation of hazard class 1 cargo with air to sea transshipment), Democratic Republic of the Congo (air delivery of hazard class 1 cargo), Afghanistan (delivery of aviation spare parts), Guatemala, Tajikistan, Venezuela and other successful projects that have been implemented in Asia, Africa and Latin America.

To date, the company has transported various types of cargo to 184 destinations in 84 countries.

Partners of the Company

Noord Connect cooperates with a network of agents covering almost 90 percent of all airports and airfields of the world - terminals Moscow-Cargo, Sheremetyevo-Cargo and Vnukovo-Cargo. The presence in all key seaports allows us to effectively provide logistics and forwarding services. In addition, the company has a developed network of partners in Africa, Latin America, the Middle East and Central Asia, which allows to perform specific tasks of clients.

Noord Connect also conducts trade and forwarding activities in Hong Kong and China. Due to the established relations with the leading container lines, consolidation terminals and air carriers located on the territory of China (e.g. ports of Fuzhou, Shanghai, Shenzhen), the company is able to deliver goods to European and CIS countries in a short time and at favorable tariffs.

Plans for the future

Noord Connect plans to purchase/leasing its own fleet of cargo aircraft, the purchase of which will optimize the transportation of cargo and make more profitable offers to customers.

The company has transported various types of cargo to

184 destinations

in 84 countries worldwide
