Krasnodar Boiler and Power Equipment Plant

The ECO-PAR range of industrial steam generators as well as block-modular steam and hot water boilers are manufactured here.

Krasnodar Boiler and Power Equipment Plant

The ECO-PAR range of industrial steam generators as well as block-modular steam and hot water boilers are manufactured here.

Customers of the plant can order here the work of a full cycle - from design, completing and manufacturing to installation, commissioning and putting into operation. Production is located on the territory of 7 thousand square meters. Application of modern technological equipment allows to solve problems comprehensively and at low cost. As a result, customers receive the most competitive and affordable services. The plant is also engaged in construction of boilers on a full cycle. In particular, the enterprise prepares executive documents for the customer at the initial stage and approves equipment operation in supervising organizations. Besides, the Krasnodar plant draws up boiler mode charts, delivers boiler equipment to customers not only in Russia, but also in the countries of the Customs Union.

The Made in Russia project is a digital trading and media platform. It includes a business information agency Made in Russia in 12 languages, as well as a digital trading house selling and promoting goods and services abroad. Companies registered on the platform receive the right to use the Made in Russia project logo, access to a loyalty programme, services and facilities.
